

March 7, 2022

The Gates Town Board held one Public Hearing and its Regular Town Board meeting on Monday, February 7, 2022 at the Town Hall Meeting Room at 7:15PM. Those attending the meeting were as follows:

Cosmo A. Giunta	Supervisor
Lee A. Cordero	Councilman
Christopher B. DiPonzio	Councilman
Andrew M. Loughlin	Councilman
Steve Tucciarello	Councilman
Daniel G Schum	Town Attorney
Veronica Owens	Town Clerk

7:00PM PUBLIC HEARING

Supervisor Giunta called the Public Hearing to order at 7:00PM.

CONSIDERING A CONDITIONAL USE PERMIT FOR INDUS QSR IV, INC. TO OPERATE DUNKIN' DONUTS, AT 1578 SPENCERPORT RD. IN A GENERAL BUSINESS [GB] DISTRICT

The Town Attorney, Dan Schum verified that the Legal Notice was properly published as required by law.

Supervisor Giunta asked if the applicant was present and would come up to speak on this application. He stated that they are looking to put in a Dunkin Donuts and have already gone before the Planning Board (2-28-2022) and received Approval and are pending application at Zoning Board (3-14-2022).

Peter Vars, BME Associates, Fairport, NY. They are proposing a fast food restaurant about 1750 sq. feet, containing indoor seating, mobile pick-up order and drive thru. The property is located at the Northwest corner of Elmgrove Rd and Spencerport Rd. It is zoned GB General Business District and because it is considered a Fast-food restaurant requires a Conditional Use Permit, which is why it's being presented. Parking is provided on-site of twenty-three (23) which is the code required based on the seating within the restaurant. Laying the project out to provide the building access to the parking, the drive-thru lane as well as a bypass lane around the drive-thru. Currently the site has four (4) curb cuts, two (2) on each side. They have met and consulted with Monroe County DOT, who has jurisdiction over Elmgrove Rd. and NY State DOT, who has jurisdiction on Spencerport Rd. There will be full service access on Spencerport Rd. and a Right-In and Right-Out Only Access on Elmgrove Rd. Both accesses will be able to access the drive-thru.

Mr. Vars mentioned they appeared before the Planning Board and received Approval based on receiving the CUP from this board as well as two (2) variances required from the Zoning Board. The Planning Board did request and they agreed to adding a six-foot (6) fence, board on board in addition to landscaping, to buffer the use from the adjoining homes. The variance needed is due to the size of the project and the setbacks. They have already met with the Zoning Board on February 14th and they are willing and prepared to issue the variance, but hadn't received the county planning referral done and will need to reappear.

Councilman Tucciarello asked if they considered flipping the building ninety (90) degrees and have the drive-thru towards the back, to be able to have larger set backs

Mr. Vars did, but the challenge was Monroe County DOT was concerned with the drive-thru **(used rendering to show)** the stacking for the drive-thru would backup onto Elmgrove Rd. They needed to keep the South/North orientation to be able to maximize the queue stacking distance for the drive-thru

Supervisor Giunta asked the hours of operation and number of employees

Mr. Vars 5:00AM-9:00PM, seven (7) days a week with sixteen to twenty (16-20) employees

Supervisor Giunta has seen the plans and the dumpster is in the back corner, but wants to be sure garbage is not being picked up before 7:00AM for the residents around the property and asked if he places that condition of no pickup before 7 am that they could accept that condition.

Mr. John Ott, Director of Operations said yes, they have the same restriction on several other properties as well.

Councilman Tucciarello wanted more information on the free-standing sign in front, the size, how close it is to the road. His concern is the sign being in line of sight

Mr. Vars stated is not too close to the property line **(used rendering to show)** it's about twenty to twenty-five (20-25) feet off the edge of the road pavement. They are out of the site distance triangle. He believes it's the standard size per town code. There is a separate sign package going to Planning and to Zoning if any variances are needed

Councilman Cordero asked if it's a new building

Mr. Vars it's the new 2022 prototype that the Dunkin brand is doing and is the first in Monroe County the next closest is Geneseo

Supervisor Giunta asked if anyone in the audience had additional comments, hearing none closed the public hearing.

RESOLUTION 58-22

Motion by Councilman DiPonzio who moved its adoption:

Seconded by Councilman Cordero

Resolved, that the Gates Town Board hereby Approves a Conditional Use Permit for Indus QSR IV, Inc. to Operate Dunkin Donuts at 1578 Spencerport Rd. in a General Business (GB) District . Hours of Operation: Seven (7) days a week 5am to 9pm, with the provision of the garbage pick-up not before 7:00am as well as the future sign being in contingent to the Planning Board.

VOTE OF THE BOARD

Giunta – Aye; Cordero – Aye; DiPonzio – Aye; Loughlin – Aye; Tucciarello – Aye;

Motion Carried.

7:30PM REGULAR TOWN BOARD MEETING

Supervisor Cosmo Giunta called the meeting to order at 7:30PM. He began with a moment of silent prayer and Pledge of Allegiance, led by Councilman DiPonzio
There were no revisions made to the minutes of the Public Hearings and Regular Town Board Meeting held February 7, 2022. Minutes stand and will be published and made available on the website and Town Clerk's office.

AUDIENCE PARTICIPATION

None

OLD BUSINESS

**CONSIDERING A CONDITIONAL USE PERMIT FOR MIKE CENTOLA
TO OPERATE ALLSTAR TACTICAL LLC,
AT 25 INDUSTRIAL PARK CIRCLE,
IN A GENERAL INDUSTRIAL BUSINESS [GI] DISTRICT**

RESOLUTION 59-22

Motion by Councilman DiPonzio who moved to re-open the public hearing:

Seconded by Councilman Cordero

Resolved, that the Gates Town Board hereby re-open the Application for a Conditional Use Permit for Mike Centola to Operate Allstar Tactical LLC. At 25 Industrial Park Circle in a General Industrial Business (GI) District

VOTE OF THE BOARD

Giunta – Aye; Cordero – Aye; DiPonzio – Aye; Loughlin – Aye; Tucciarello – Aye;

Motion Carried.

Supervisor Giunta asked if the applicant was present and would come up to speak on this application.

Mike Centola, 25 Industrial Park Circle., in regards to the last meeting and the comments made, they went back and looked into incorporating a carport style covering to sort of address the sound issues. Also, with concrete barriers in distinct areas would help diminish sound pollution and noise leaving the area.

Supervisor Giunta asked what the material of carport would be made of

Mr. Centola, it would be sixteen (16) gage steel roofing style material as well as a spray foam insulation

Supervisor Giunta asked how close the concrete walls would be to the carport roof more so to the distance/spacing between roof and wall

Mr. Centola, with the latest revision with splitting it in half, eight feet (8) of concrete wall and with the structure above that would be fourteen feet (14) and there will be sides on that as well, so realistically the only opening would be towards the North of the rear. It would be anchored and structured to the wall. For the most part would be enclosed but ventilated enough to not need mechanical ventilation systems. It would be similar to a horse barn style set up, or how town's store salt

Councilman Tucciarello asked if there has been any engineering when it comes to sound and how would the added structure effect it?

Mr. Centola explained in his packet he has an Electrical Engineering Degree and a Computer Systems Engineering Degree as well his Masters. They do radio frequency studies and believes his background is more than sufficient to interoperate the formulas needed to address any sound issues and included that data in the packet as well.

Councilman Tucciarello asked if they did any calculations

Mr. Centola, stated they are included in the packet, basically the calculations were that at the time it came to five-hundred (500) feet away from the point where the sound is produced with no obstructions, in a vacuum would lessen by sixty (60) decibels, which actually puts into OSHA's hearing safe levels for the work place. That is not including the buildings, the structure or anything in the area to absorb, redirect, reflect to quiet it down.

Councilman Tucciarello asked if the plot of land they are building on, is large enough to contain decibel level five-hundred 500 feet within his own property or will it go off property

Mr. Centola it would go off, but not reach any houses within five-hundred 500 feet. It stays within the Industrial area

Councilman Loughlin the noise study printed here is from last month, is it similar now with the structure added or has it changed

Mr. Centola the noise study done last month was theoretical, with no obstructions, nothing to absorb anything. Now with the structure, concrete, berm and everything in the area believes it would be much less even off their property.

Councilman Cordero asked how high the berm in the back is because he did some research and thinks the NRA shows the minimum is twenty-feet (20) recommended

Mr. Centola looking at the information from the Department of Energies, training range guidelines, they say a minimum of sixteen-feet (16'), but twenty foot (20') is recommended

Councilman Cordero asked if the back of the roof is going to come down to the berm

Mr. Centola they were going to push the dirt till it reached the back end of the roof, essentially touching

Supervisor Giunta asked if for clarification that the range would run Saturdays or/and Sundays

Mr. Centola wanted to reiterate that it's private only, training only, safety classes, individual training, and if this keeps growing, there would be a possibility to enclose it in the future and convert it from this semi-enclosed to fully enclosed, which then would make the noise a non-issue, but at this point are only considering classes on the weekends. Could be Saturday and Sunday depending the number of instructors, but for now only one day of the weekend

Councilman Loughlin commented Mr. Centola did a good job describing the architecture, but wanted to know if he had copy for them to look at. A copy was provided to board by Secretary Lily.

Supervisor Giunta (**used rendering to show**) asked how far away from the shooting point that the actual cover starts or does it come all the way back?

Mr. Centola it comes all way back to the farthest possible position that someone would be able to shoot from. The operating procedures would match were the roof would be.

Supervisor Giunta, so the roof would be extended to almost to the end of the barrier

Mr. Centola, yes as far back as they can go

Councilman Loughlin in the course of fire, what is the maximum distance from where the shooter would be shooting to the target?

Mr. Centola, they were told the maximum is twenty-five (25) yards to shoot from and would align it to that as well.

Supervisor Giunta now opened up the public hearing to the audience for additional comments

Mary Kay Smyth, 9 Sands Rd. is not comfortable with the project. There has been work done by RG&E in the area a couple years ago and the all day and some weekend noise were annoying and not saying they would be hearing gun shots all day but she wants to enjoy the peace and quiet of the natural area. Also, thinking about the Animal Hospital on Coldwater Rd. and the shooting noise would scare the animals. Her dog gets scared from fireworks or thunderstorms. Also, speaking with some neighbors who brought up a nearby school and playground and are concerned and are uncomfortable with the idea. She stated she's **AGAINST** it.

Frank DeGuglielmo, 306 Rossmore St. has two (2) children who attends the nearby school mentioned and is **FOR** the project. At the last meeting, noise seemed to be the major issue and he feels it was addressed pretty well and to reiterate on the sound, he looked at the original packet and as stated the decibel level within five-hundred (500) feet, unobstructed would be an open field, with nothing in the way. This will be eight-foot (8) concrete walls with a steel barrier top, almost full enclosed. There are trees, industrial buildings, the scientific facts, a lot to lessen the sound even less than the passing train.

There are reasonable concerns and he did some research and shared some statistics he found from the Gun violence archive, which is a public website and the statistics are varied daily. In going through hundreds of statistics was looking for any coming from a stray bullet and there were none. He did find several from accidental shootings or misuse due to lack of proper trainings on handling a gun along with safety and storage of firearms.

There is a misconception that this will be a public range and it's not. It will be a private range, with the sole purpose to provide safe training and proper handling and storage of firearms. He feels safety is very important.

Derrick Plaisted, 17 Industrial Park, knows the residents have concerns. Stated all the instructors would be more than happy to sit and put any concerns to bed. This May he will be retired one (1) year from the NY State Police, eighteen (18) of his twenty (20) years were spent as a firearms instructor with the last ten (10) focusing on active shooter related events. Prior to the NYS Police he had seven (7) years active duty in the US Army Military Police, five (5) of the seven (7) years as a firearms instructor.

The general idea of the training is to generally save lives, not to stand behind a building and just shoot at a berm. They will be offering medical classes, medical trauma training. Classes for standard civilians on how to react and respond in a mass casualty event. They have certified instructors, and people who have actually applied these things in real life. There will be No military or law enforcement tactical training except what the Gates Police Department does with their officers.

They clearly want to teach proper handling and safe storage, proper fundamentals. He choose to work with Mike Centola because of his professionalism and his knowledge and his ability to run these ranges safely.

He has put together a question and answer sheet and if any resident or anyone has questions or concerns reach out to him and he will help answer them as well as the attorneys they have on hand to answer any legal issues someone may have, the Do's and Don'ts legally

Alan Maenza, 2 Chiswick Cir in regards to the training, training is great and feels everyone who owns a firearm should have it, but there have been instances where training did no good. If someone want to do something they will find a way.

He is **AGAINST** this project. He has a daughter and grandchildren who live on Coldwater Rd., there's a school, animal hospital and apartments.

There are already several ranges people can go to. 4-Points Gun Club (8 minutes from here), The Firing Pin (Bergen), Rochester Rifle (indoor) Genesee Conservation, (Penfield) and others. He feels there is no need for this in his backyard. Not in Gates

Mr. Centola the gentleman mentioned the public ranges, but they do not allow outside instruction

Mr. Maenza responded 4-Point does as well as the Rochester Rifle Club and Genesee Conservation, maybe not on a daily basis, but they do have them

There was debate going back forth and people speaking in the audience and Supervisor Giunta asked for everyone to stop talking out so everyone can have a chance to speak clearly.

Mr. Centola 4-Point actually hired him to reach NRA classes at their place, but as a member there will shoot by themselves. Pay and shoot.

He was on the Board of Directors at the Ontario Rod and Gun and helped build the entire program for bringing in outside instructors and some places for allow a team of instructors to come in and rent it, but most do not which is the reason this project was spun, for the ability to hold a class of 4-6 students, when there are members who are there to just shoot.

Attorney Schum explained the meaning and purpose to the audience of applying for a Conditional Use Permit and the statute of it is that the burden is placed on the applicant to address the 2 question of how a business proposed use fit in harmony within that specific zoning of that area and the other businesses within that area and the uses are as close to being permitted uses in that area of General Industrial. Currently it is not allowed but can be allowed as a condition so how does the shooting range fit in this industrial district is what he believes the resident is asking.

Jason Vanaernum, 707 Coldwater Rd. is also speaking for his wife, Nikki who could not attend the meeting. Their house is nine-hundred (900) feet from the proposes application. He has no ill will towards Allstar Tactical or Mr. Centola. He is a gun owner and is a member of Bergen Rod and Gun Club and has been shooting for a very long time and continues to do so till this day. He is purely coming from a place of a Dad in the area with two (2) young kids. In terms of the sixteen (16) gauge steel, which is what he would use to repair a corner panel of a car, it's very thin. The insulation of his house is more thorough then this structure would be and if that's the case, why can he still hear fireworks in Chili Center or clearly hear the trains which is nine-hundred (900) feet away. He doesn't feel these things will contain the sounds in any way, but will project even more towards the schools and also agrees there are other safety courses. As for Saturday and Sunday, he thinks it will start that way, but then get more frequent. Mr. Vanaernum continued with a number of various concerns and issues and is therefore **AGAINST** this application.

Connie Kaminski, 21 Elmford Rd. which is not near the project, but is **OPPOSED** of any open firing range in the Town of Gates, not making a difference what the zoning district is. People working in the area or residents living in the area do not need to hear gun fire at anytime not even on weekends.

Joan Kulikowski, 769 Coldwater Rd. She is all for the right of use of guns and for training. She is for all the elements Mr. Centola is about, but not for the noise, being an outdoor range. She frequently walks the neighborhood and has lived there twenty-three (23) years and believes a more appropriate spot would be further away, not near a residential area. As a realtor she believes this will affect the market in the area. If it can not be contained then she is **NOT** for it.

Mr. DeGuglielmo added he had a possible suggestion seeing the biggest concern was noise. He proposed with law enforcement supervision, on the property, with the Allstar's proposed safety measures hold a test firing at a scheduled time of day with possibly three (3) rounds for the neighbors to be able to hear the amount of actual noise.

Councilman Cordero the proposed structure would need to be built first in order to be tested and then if it got denied would be a waste. It seems most complaints are about the noise, but there are a few stray bullets that people are also concerned with.

Mr. Centola asked a general question to the audience that if they were to change their proposal to an entire enclosed range would this be supported and then asked the question that per the town code if a fully enclosed indoor range were constructed that it would be allowed to bypass the "No discharge of firearms"

Attorney Schum stated that he needed to further investigate but believe that's how the code reads but also stated that a conditional use permit would still be needed in the zone.

Councilman DiPonzio asked if with an indoor range and proper insulation sound proofing, what would the noise decibel level be, realizing it could not be one-hundred percent (100%) and spending a ridiculous amount of money

Mr. Centola, less than the train sound, Mr. Plaisted added equivalent to a car door slammed shut.

After further discussion and clarification with the board about the application if denied and how long they would have to wait (a year before re-applying) or if denied without prejudice, Mr. Centola decided to **WITHDRAW** this Application at this time.

Supervisor Giunta stated for the record that this Conditional Use application is hereby withdrawn.

NEW BUSINESS

CONSIDER RENEWALS OF THE CONDITIONAL USE PERMITS FOR THE FOLLOWING:

**BURGER KING, 4 SPENCERPORT RD.; 200 PIXLEY RD LLC, 200 PIXLEY RD.;
WESTSIDE FAMILY YMCA, 920 ELMGROVE RD.; VG TRUCKING INC.,
48 PIXLEY INDUSTRIAL PKWY.; MEDHANE ALEM ERITEAM ORTHODOX
TEMAHDO, 2445 LYELL RD.; CRAVE 360, 250 PIXLEY RD.**

Supervisor Giunta stated that he has reviewed the files and there are no violations against these businesses with the exception of Crave 360, 250 Pixley Rd. and finds no reason why the Conditional Use Permits for these businesses should not be renewed and approved on mass.

RESOLUTION 60-22

Motion by Councilman DiPonzio who moved its adoption:

Seconded by Councilman Cordero

Resolved, that the Gates Town Board hereby approves the renewal of the Conditional Use Permits on mass for the following: Burger King, 4 Spencerport Rd.; 200 Pixley Rd LLC, 200 Pixley Rd.; Westside Family YMCA, 920 Elmgrove Rd.; VG Trucking Inc., 48 Pixley Industrial Pkwy.; Medhane Alem Eriteam Orthodox Temahdo, 2445 Lyell Rd.;

VOTE OF THE BOARD

Giunta – Aye; Cordero – Aye; DiPonzio – Aye; Loughlin – Aye; Tucciarello – Aye;

Motion Carried.

Supervisor Giunta clarified that Crave 360, 250 Pixley Rd. has an Open Violation, but has worked out a payment plan with the owners, who have agreed to adhere to the plan. If they do not meet the agreement, their Conditional Use would be revoked. There will be a follow up in a few months to check on the status of the Open Violations.

RESOLUTION 61-22

Motion by Councilman DiPonzio who moved its adoption:

Seconded by Councilman Cordero

Resolved, that the Gates Town Board hereby approves the renewal of the Conditional Use Permits on for the following: Crave 360, 250 Pixley Rd. with agreed condition and plan to rectify the open violation as mentioned above.

VOTE OF THE BOARD

Giunta – Aye; Cordero – Aye; DiPonzio – Aye; Loughlin – Aye; Tucciarello – Aye;

Motion Carried.

**AUTHORIZING THE DIRECTOR OF FINANCE TO MAKE 2021 BUDGET
TRANSFERS WITHIN THE LIBRARY FUNDS**

RESOLUTION 62-22

Motion by Councilman Loughlin who moved its adoption:

Seconded by Councilman Tucciarello
